Product Sheet

momit HOME THERMOSTAT
Anytime, Anywhere

App control   **Savings**   **Smart**   **Easy installation**   **Portable**

Features

My Budget: Allows establishing a monthly energy budget.

Heat Control: Control it from your mobile.

Internet Connection: Connects to the Internet through the momit Gateway.

Cordless: Works with AA batteries.

Schedule: Program the temperature intervals you want per day.

Geolocation: Turns the heating system on or off according to the user's position.

Presence: Thanks to its motion sensor, it detects whether there is someone home or not, turning off the heating to avoid unecessary energy consumption.

Temperature and Humidity Sensor: For monitoring and home statistics.

Weather Forecast: Up to 7 days from the momit Home Thermostast App.

Stadistics : Consumption, temperture and humidity statistics.

Meet the momit Home family
